

**FITNESS MAKES PERFECT WITH EASY ADD-ON TYPE NOSE PADS.**

# Pitarm<sup>PAT.</sup> PAD ARMS FOR PLASTIC FRAMES

- ◆ **Good choice when you have troubles with the nose fitting.**
- ◆ **Dead stock frames will come alive.**
- ◆ **No more disappointment with unfittable frames.**

C.N.P.A Series

C.N.P.A Series

*There are so many kinds of plastic frames in the current market places. However it will not be easy to find the one to fit you properly.*

*For countermeasures, we newly developed easy ADD-ON TYPE nose pads arm utilizing fusible material to fix the arms.  $\beta$ -Titanium made arms give superior flexibility to adjust to fit each wearer individually.*

*In addition, there are sufficient types of pads to cover any demands.*

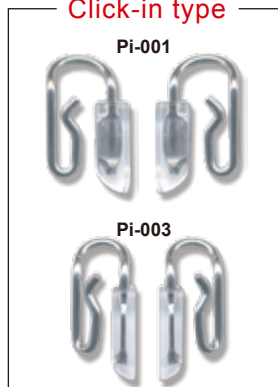

**Note :** Depending on the frame materials, this system may not work.

Please be sure to check frame material before you try this glueing system with Acetone.

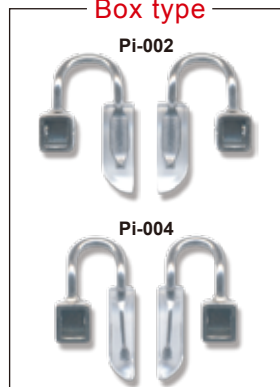

Both Acetate and Celluloid made frames are workable.

Pi-002 & 004 are supplied with screws.
